

ASSOCIATE MEMBERSHIP APPLICATION

ASSOCIATE MEMBERSHIP

The Economic Development Consultancy offers Associate Memberships to individuals and businesses that are willing to both contribute to and benefit from the unique networking opportunities provided by TEDC. Several times a year, we hold Associate Member meetings where we discuss all current and potential business opportunities and how TEDC can assist. At these meetings, our focus is on assembling the best team from among the Executive and Associate Membership base to help see these quality opportunities through to fruition. Rather than approaching prospects as an individual or company, you are presented, through TEDC, as part of a complete solution. This powerful, "turn key" model is appealing to our business prospects as they no longer need to deal with the burden of selecting and qualifying the business partners needed to see their project through to the end. We bring a high quality, packaged solution, compiled from our Executive and Associate Membership base.
